

Colosseum

The Colosseum is the ruins of a large stadium, built by slaves, for the exploitation of people for the sake of public entertainment. We took a tour through the underground level of the Colosseum.

The Ocean

We went to the Anzio beach, spent an evening wading along the beach in the water, and seeing a beautiful horizon sunset.

We took a train from Rome to the beach town of Anzio. Many families were playing beach volleyball, and just basking on the beach, where it was far cooler than mainland Rome.
