

The Vatican

Small country, large basilicas, and beautiful art

We spent a day at the Vatican, visiting the Museums, St. Peter's Basilica, and the Sistine Chapel.

Pictured here is the St. Peter's Square Plaza.

St. Peter's Basilica

The St. Peter's Basilica is a large church with ostentatious architecture and art. As one walks in, gigantic latin text in black lines the top of ornately designed bases of the domes.

The basilica also houses the tombs of the popes.
